About Us

Rensino Electrical Appliances Co., Ltd., a subsidiary of Rensino Group Limited, is a high-tech enterprise specializing in the research and development, production, sales, and technical services of innovative heating appliances. With a commitment to cutting-edge technology and stringent quality control, we focus on creating eco-friendly, energy-efficient solutions that cater to diverse markets and demanding environments.

Leveraging an experienced R&D team and advanced manufacturing processes, our extensive product range covers Convection Heaters, Fan Heaters, Fireplace Inserts, Fireplace Stoves, Fireplace Suites, Infrared Diesel Heaters, Infrared Heaters, Multifunctional Heaters, and Wall-mounted Fireplaces. Each offering is designed to deliver optimal performance, comfort, and durability, reflecting our dedication to excellence.

At Rensino, we prioritize innovation-driven development, investing significantly in new technologies to refine product performance and reduce environmental impact. Through sustainable production methods and environmentally conscious facilities, we endeavor to minimize energy consumption and emissions—supporting a healthier planet for future generations.

Guided by the business philosophy of “Quality First, Customer Foremost,” we strive to provide our global clientele with top-tier products and comprehensive technical support, ensuring that every project is executed to the highest standards. Trusted for our reliable after-sales service and professional expertise, Rensino Electrical Appliances Co., Ltd. has established a reputable presence in both domestic and international markets.

We look forward to partnering with you to create a more comfortable, robust, and environmentally sustainable future. Together, let’s redefine the possibilities of heating technology.

Convection Heaters

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

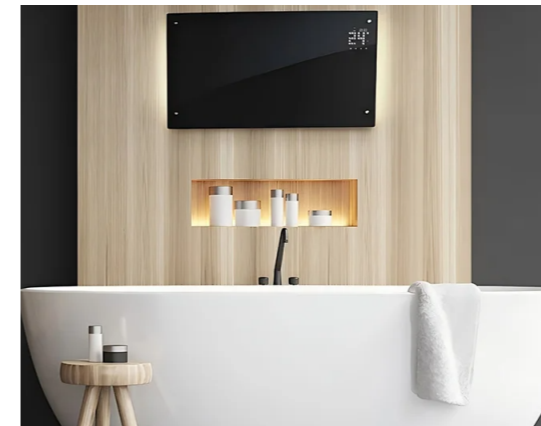

HA-001 Glass Panel Convector Heater

- 1.Power: 2000W
- 2.Voltage: 220-240V/50Hz
- 3.Waterproof: IP24
- 4.Control mode: Touch Screen Control.Remote Control
- 5.Feature: Energy Saving
- 6.Color: Black&White&Red
- 7.Plug: Customized
- 8.Heating Elements: X Shape Heating Element

HA-002 Glass Panel Convector Heater

- | | | |
|--|--|---|
| 1.Voltage: 220-240V/50Hz/60Hz | 2.Waterproof: IP24 | 3.Heating area: 10-25 m ² |
| 4.Control mode: Wifi/Touch Screen Control/Remote Control | 5.Feature: Wifi/Weekly 24 Timer/Dump Switch/ | 8.Heating Elements: X Shape Heating Element |
| 6.Color: Black and White | 7.Plug: Customized | 11.Certifications: CE&3C |
| 9.Heating method: Aluminum Heat | 10.Power: 500/1000/1500/2000W | 13.Temperature Control: 5-45 C |
| 12.Mounting Style: Wall-mounted & Floor-mounted | 15.Function: Open Window Detection Function / ECO Function | |
| 14.Overheating protection: 130 C | | |

EFFORTLESS CONTROL

With large LED temperature display and remote control

HA-003 Glass Panel Convector Heaters

- 1.Voltage: 220V/50Hz
- 2.Color: White/Black/Red
- 3.Power: 2400W
- 4.Product Size: 865*125*475mm
- 5.Carton Size: 960*175*560mm
- 6.Model: NDL-24WTL
- 7.Fuction: High and low adjustable, 5-45 C temperature adjustus and 24 hours timer shutdown, child lock, Celsius and Fahrenheit temperature switching, can be timed to turn on, WIFI + Bluetooth remote control +24H weekly timer
- 8.Control: Electronic touch screen + remote control + WIFI + Bluetooth + remote control
- 9.Material: Recessed tempered glass, white or black / die-cast aluminum stand
- 10.Special Function: Overheating And Power-Off Protection
- 11.Net/Gross Weight (Kg): 10.5/12
- 12.Heating Range: 20-30 Square Meters
- 13.Accessories: Die-cast aluminum alloy stand with 1" casters

HA-009 Digital Metal Convection Heater Outdoor

- 1.Warranty: 1 Year
- 2.Specification: 2000W
- 3.Application: Hotel, Commercial, Household
- 4.Private Mold: Yes
- 5.Model Number: NDH
- 6.Controller: Remote+screen Touch
- 7.Voltage: 220V-240V
- 8.Function: Adjustable Thermostat

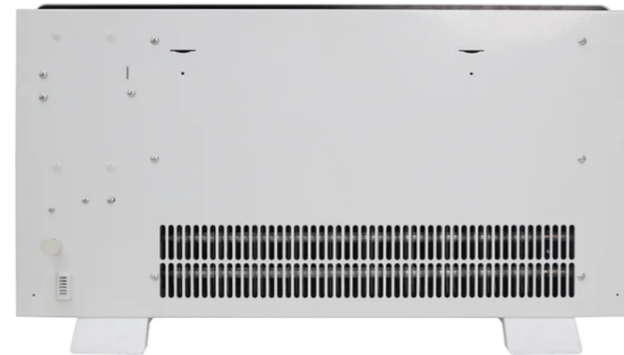

HA-012 Convection Electric Heaters

- 1.Specification: 2400W
- 2.Voltage: 220-240V/50HZ
- 3.Power: 1000W/1500W/2000W/2400W
- 4.Heater type: X-shape Aluminum Heating
- 5.Waterproof: IP24
- 6.Material: Metal/Aluminum
- 7.Function: Remote Controlled/Adjustable Thermostat, Deodorization, Overheat Protection, Tip-Over Protection, Waterproof
- 8.Product Size: 830*400*107mm
- 9.Installation: Free-standing/Wall-mounted
- 10.Timer: 7days*24hours timer

HA-006 Glass Panel Convecter Electric Heater

- 1.Specification: 2000W/2500W
- 2.Application: Hotel, Commercial, Household
- 3.Function: App/Remote Controlled/Adjustable Thermostat, Deodorization, Overheat
- 4.Private Mold: Yes
- 5.Controller: Remote+screen Touch
- 6.Voltage: 220V-240V
- 7.Function: Adjustable Thermostat, Deodorization, Lighting, Overheat Protection, Remote Controlled, Tip-Over Protection, Ventilation, Waterproof
- 8.Heater type: Heat Radiation
- 9.Heating Elements: Heatinging Wire Element
- 10.Timer: 24H
- 11.Product Size: 1095*135*382mm
- 12.Cartan Size: 1185*225*460
13. N/W;G/W: 9.5/12.7KG
- 14.Free-standing/Wall-mounted

HA-010 Metal Convecter Heaters

- 1.Timing Function: 24 Hours & Weekly Timing & Wifi
- 2.Voltage: 220-240V/ 50/60Hz
- 3.Dump Switch: Electronic Dump
- 4.Number Of Gears: 2 Gears (High And Low Adjustable)
- 5.Temperature Adjustment: 5-45 °C
- 6.Overheating Protection: 130 °C
- 7.IP Level: IP24 Waterproof
- 8.Heat Generation Mode: Convection
- 9.Heat Generator Type: X-Type Heat Generator
- 10.Accessories: Die-Casting Aluminum Alloy Handle And Foot Bracket + Non-Slip Mat
- 11.Other Functional Features: Warm White Ambient Light At The Bottom
- 12.Heating Range: 25-30 Square Meters
- 13.Heating Principle, Working Principle: Convection Heating X-Type Heating Tube Power, The Heating Tube Near The Air Temperature Rises, Volume Expansion, Density Becomes Smaller, The Hot Air Rises From The Outlet Discharge, The Heating Body Near The Formation Of Negative Pressure, The New Cold Air From The Inlet To Supplement The Inlet, The Formation Of An In And Out Of The Cold, Hot Air Circulation
- 14.Product Size(mm): 1145*55*403

HA-008 Metal Panel Convecter Heater

- 1.Voltage: 220V/50Hz
- 2.Power: 2500W
- 3.Fuction: Weekly, 24 hours/Dump Switch/Uv Sterilization Function/ Intelligent Child Lock Control;
- 4.Control: WIFI/Remote control/
- 5.Temperature Adjustment: 5-45 °C
- 6.Dust And Waterproof: IP24
- 7.Two Heating Modes: Strong Current And Natural Convection(Low Grade (1250w) + High Grade (2500w))
Overheating Protection: 100 ° C
- 8.Heating Range: 18-20 Square Meters
- 9.Special Function: High Temperature Sterilization + UV Sterilization
- 10.Model: NDT-25DWX
- 11.Product Size: 850*165*510mm
- 12.Cartan Size: 925*225*585mm
- 13.Net/Gross Weight (Kg): 8.9/10.1

HA-011 Metal Convecter Heaters

- 1.Power: 2400W
- 2.Voltage: 220-240V~ 50Hz
- 3.Timer: 24h timer
- 4.Installation: Wall Mounted/Freestanding
- 5.Setting: High/Low Stage
- 6.Function: Adjustable Thermostat, Overheat Protection, Tip-Over Protection, Waterproof
- 8.Use: Bathroom, Bedroom, Garden, Living Room, Other

Fan Heaters

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

HA-013 PTC Fan Heater

- 1.Voltage: 220V/50Hz
- 2.Power: 2200W
- 3.Product Size: 308*253*380mm
- 4.Cartan Size: 340*275*418mm
- 5.Timing: 12 Timer
- 6.Dump switches: Yes
- 7.Overheating Protection: Yes(85 C)
- 8.Heater type: PTC
- 9.N/M;G/M: 2.6/3.5KG
- 10.Functional Description: Five-Speed Adjustment (With Strong Wind Mode), 12-Hour Timer, Left And Right Head Shaking, Up And Down Manual Head Shaking, Sleep Mode, Temperature Setting.
- 11.Heating range: Suitable For 20 Square Rooms

HA-014 Mini PTC Fan Heater

- 1.Power: 500w
- 2.Voltage: 100-120V/100-120V
- 3.Energy Efficiency Rating: Class A+
- 4.Model Number: NQ-MN05
- 5.Color: Pink/Black/Green/White (Customized Color MOQ 1000)
- 6.CHeating Elements: Using advance semiconductor ceramic PTC heating element
- 7.Material: ABS
- 8.Product size: 15.5*11.5*13.5cm
- 9.Single package size: 17X8.5X14 cm
- 10.Single gross weight: 0.440 kg
- 11.Single gross weight: 0.440 kg
- 12.Feature: Multiple safety design, overheating automatic protection, low noise and long service life

HA-015 Mini PTC Fan Heater

- 1.Specification: 500w
- 2.Voltage: 100-240V/50-60Hz
- 3.Heating Elements: PTC Ceramic Element
- 4.Feature 1: Non-slip feet on bottom for stable
- 5.Feature 2: Multiple safety design, overheating automatic rotection, low noise and long service life
- 6.Feature 3: Adjustable rotation 100°
- 7.Feature 4: With air filter;Low noise and long service life
- 8.Feature 5: The shell can be chose water transfer or spray processing, decorative cover and base by electroplat
- 9.Feature 6: With ON/OFF switch
- 10.Product Size: 185*85*145mm
- 11.Single gross weight: 0.550 kg
- 12.Single package size: 18.5X8.5X14.5 cm
- 13.Material: PP+ABS

Fireplace Insert

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

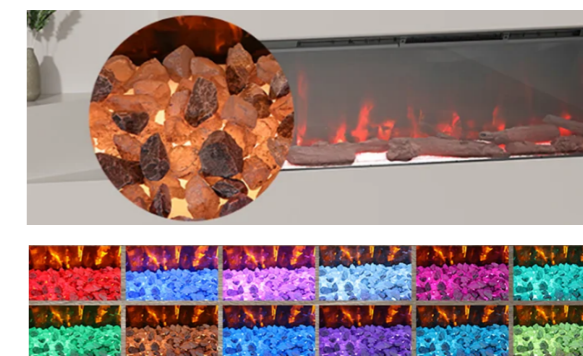

HA-048 Insert Electric Fireplace

- 1.Product size: 693*170*540mm
- 2.Area Heated: 15~25 m²
- 3.Power: 1500W
- 4.Voltage: 120V/60Hz;220-240V/50Hz 2000W with 2 power setting
- 5.Timer: 5 hour timer
- 6.Flame: 7 flame color adjustable with 5 levels LED lighting can be adjusted
- 7.Fuction: Weekly program/ERP are optional
- 8.Temperature setting: 17-35 °C
- 9.N/M: 11.8kg
- 10.G/W: 13.7kg

HA-047 Freestanding & Insert 3 Sided Electric Fireplace Media Wall

- 1.Power: 900W/1800W/CUSTOM;2 heat setting
- 2.Voltage: 220V-240V/50Hz
- 3.Area Heated: 10-30m²
- 4.Model Number: YFG-5002WERB
- 5.Temperature Set: 18 C -35 C
- 6.Control mode: Control Panel+Remote Control+Wifi App Remote Control
- 7.Timer: 9 h timer
- 8.Feature: Overheating Protected; Adjustable Thermostat
- 9.Material: Flat tempered glass panel+Log set decoration
- 10.Feature: 12Led flame colors with 5 levels flame brightness adjustment -7 flame can be choosed
- 11.Product Size: 1250*230*450mm

HA-049 Insert Electric Fireplace

- 1.Product size: 732*163*620mm
- 2.Design: Flat panel glass
- 3.Area Heated: 15~30 m²
- 4.Power: 1500W/2000W
- 5.Voltage: 220~240V 50Hz /120V/60Hz
- 6.Material: Metal trim & tempered glass
- 7.Timer: 9 hour timer
- 8.Flame: 7 flame color adjustable with 5 levels LED lighting can be adjusted
- 9.Application: Hotel, Commercial, Household
- 10.Fuction: WIFI/Weekly program/ERP&Cracking sound are optional
- 11.Temperature setting: 18-35 °C
- 12.N/M: 15.3kg
- 13.G/W: 17.0kg
- 14.Size: 24" /28" /48" /60" /72"

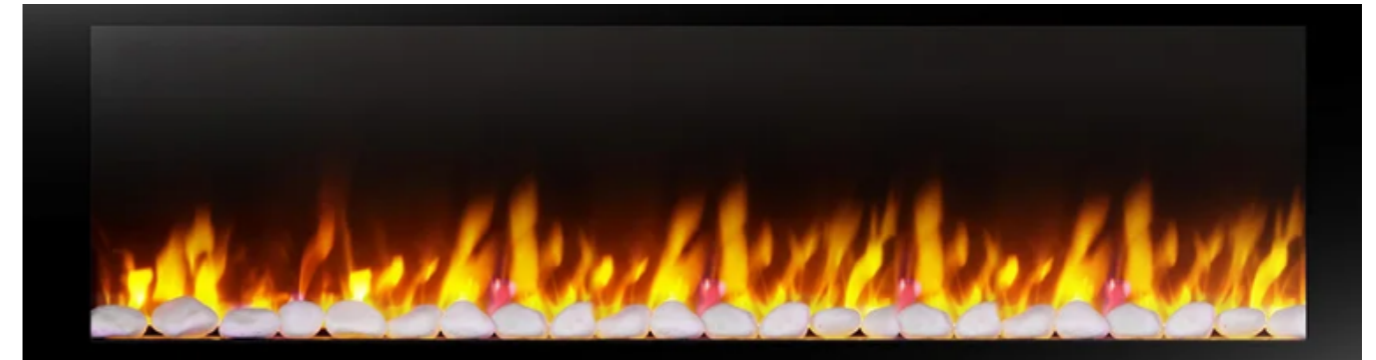

HA-050 Insert & Wall-Mounted Electric Fireplace

- 1.Product Name: Wall Mounted/Built In Electric Fireplace
- 2.Power: 1800W,2 heat setting(900W/1800W)
- 3.Air Outlet: Front
- 4.Temperature Setting: 18-35 °C
- 5.Material: Log set with LED light Effect
- 6.Flame: 7 changable flames,5 level flame brightness
- 7.Heat: Can be used without heating but only flame
- 8.Timer: 1H to 9H
- 10.Size: 30"/36"/42"/48"/60" are available

HA-052 Wall Mounted & Insert Electric Fireplace

- 1.Specification: 2400W
- 2.Voltage: 220-240V/50HZ
- 3.Power: 1000W/1500W/2000W/2400W
- 4.Heater type: X-shape Aluminum Heating
- 5.Waterproof: IP24
- 6.Material: Metal/Aluminum
- 7.Function: Remote Controlled/Adjustable Thermostat, Deodorization, Overheat Protection, Tip-Over Protection, Waterproof
- 8.Product Size: 830*400*107mm
- 9.Installation: Free-standing/Wall-mounted
- 10.Timer: 7days*24hours timer

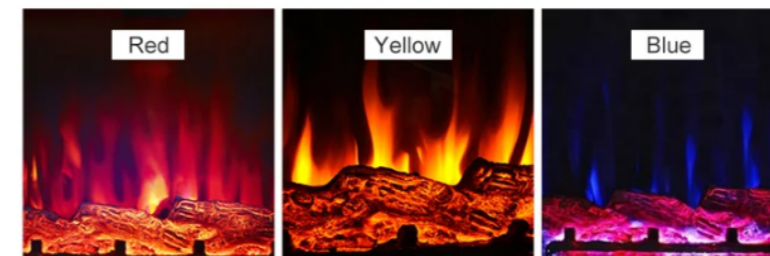

HA-011 Metal Convector Heaters

- 1.Function: Adjustable Thermostat, Deodorization,
- 2.Lighting, Other, Overheat Protection, Remote Controlled
- 3.Application: Hotel, Commercial, Household, Outdoor
- 4.Feaure: 2 grade of heat setting/App-Controlled/Adjustable
- 5.Thermostat, Deodorization, Lighting, Other, Overheat Protection, Remote Controlled
- 6.Model Number: YF-7201ERA
- 7.Design: Flat Black Glass Front Panel
- 8.Flame Colors: 7 Changeable Colors Flame
- 9.Flame Brightness: 5 Level Can Be Adjustable
- 10.Product Size: L1828*W163*H380 mm
- 11.Carton Size: L1920*W220*H455 mm
- 12.Timer: 30 Mins-9 Hours
- 13.Flame Effect: LED Flame Lights
- 14.Decorative: Log Set/Crystal Stone
- 15.Voltage: 110~120V
- 16.Power: 1500W

HA-053 Insert Electric Fireplace

- 1.Product size: 732*163*390mm
- 2.Design: Flat panel glass
- 3.Area Heated: 15~30 m²
- 4.Power: 1500W/2000W
- 5.Voltage: 220~240V 50Hz /120V/60Hz
- 6.Material: Metal trim & tempered glass
- 7.Timer: 9 hour timer
- 8.Flame: 7 flame color adjustable with 5 levels LED lighting can be adjusted
- 9.Application: Hotel, Commercial, Household
- 10.Fuction: WIFI/Weekly program/ERP&Cracking sound are optional
- 11.Temperature setting: 18-35 °C
- 12.Size: 24"/28"/48"/60"/72"

Fireplace Stove

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

HA-040 Freestanding Small Mini Electric Fireplace

- 1.Product Voltage: 220V/110V
- 2.Rated power: 2000W
- 3.Frequency: 50Hz
- 4.Timer function: 24 hour timer
- 5.Installation: Floor standing
- 6.Number of gears: 2 gears
- 7.Temperature adjustment: 5 - 35°C
- 8.Overheating protection: 157 degrees
- 9.Remote controls: Yes
- 10.Heater Type: Heating Wire
- 11.Product Size(mm) L*W*H: 375*255*560
- 12.Package Size(mm) L*W*H: 475*355*670
- 13.Net/Gross Weight (Kg): 8.56/11.41
- 14.Framing Quantity (pcs) 20'GP/40'GP/40'HP:: 310/640/730 pcs

HA-041 Electric Fireplace with Mantle

- 1.Power: 1000W / 2000W
- 2.Voltage: 220-240V 50-60Hz
- 3.Area Heated: 10-25 Square Meters
- 4.Color: Black
- 5.Flame: LED
- 6.Material: Steel+ABC
- 7.Heat setting: 2 grade
- 8.Mantel: MDF
- 9.Application: Outdoor&Indoor
- 10.Feature: 14" Free standing Electric stove,ABS& metal housing,220~240V/50Hz,1800W; - White painted surround,black back panel & hearth; - Manual control and flame effect with LED light; - 2 grade of heat setting; - Resin log decorative; - Overheating protection - Product size 810*270*751mm - Carton size 890*345*835 - N.W. 21.5kg G.W. 26kg

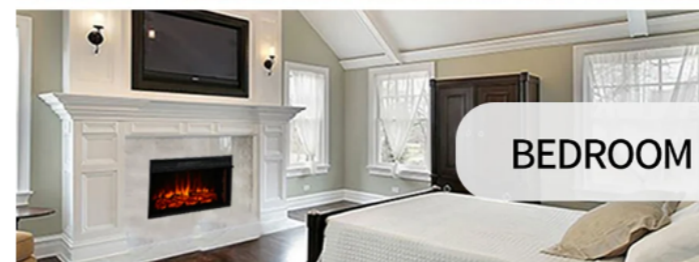

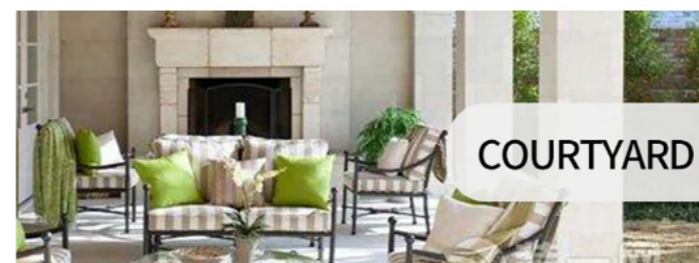

Fireplace Suite

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

HA-042 Electric Fireplace with Mantel

- 1.Power: 1000W/2000W
- 2.Voltage: 220-240V
- 3.Area Heated: 15-25sqm
- 4.Timer: 9 Hour Timer
- 5.Warranty: 1 Year
- 6.Flame: Three color led flame with 5-level lighting
- 7.Product size: 1010*220*818mm
- 8.Material: Wood+log set
- 9.Application: Hotel, Household
- 10.Feature: Overheating protection/Remote control/Temperature adjustable

Infrared Diesel Heater

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

HA-044 Infrared Diesel Heater

- 1.FUEL CONSUMPTION: 1.15L/h – 1.25L/h
- 2.Fuel: Diesel Oil
- 3.Output Heat(KW): 20
- 4.Heating Area: 149-200 m²
- 5.Product Size(mm): 1150*305*1165
- 6.Carton Size(mm): 1195*345*1225
- 7.Weight: 57KG
8. Noises: 50db
- 9.Rated power consumption: 80W(220V50Hz)
- 10.Logo: Accept Customized Logo
- 11.Timer: 24H
- 12.Control: Wifi/Remote Control
- 13.Safe: 45° Tip Over Protection
- 14.Alarm: Bottom Oil Level Alarm&Over heat safety protectin

HA-045 Infrared Diesel Heater

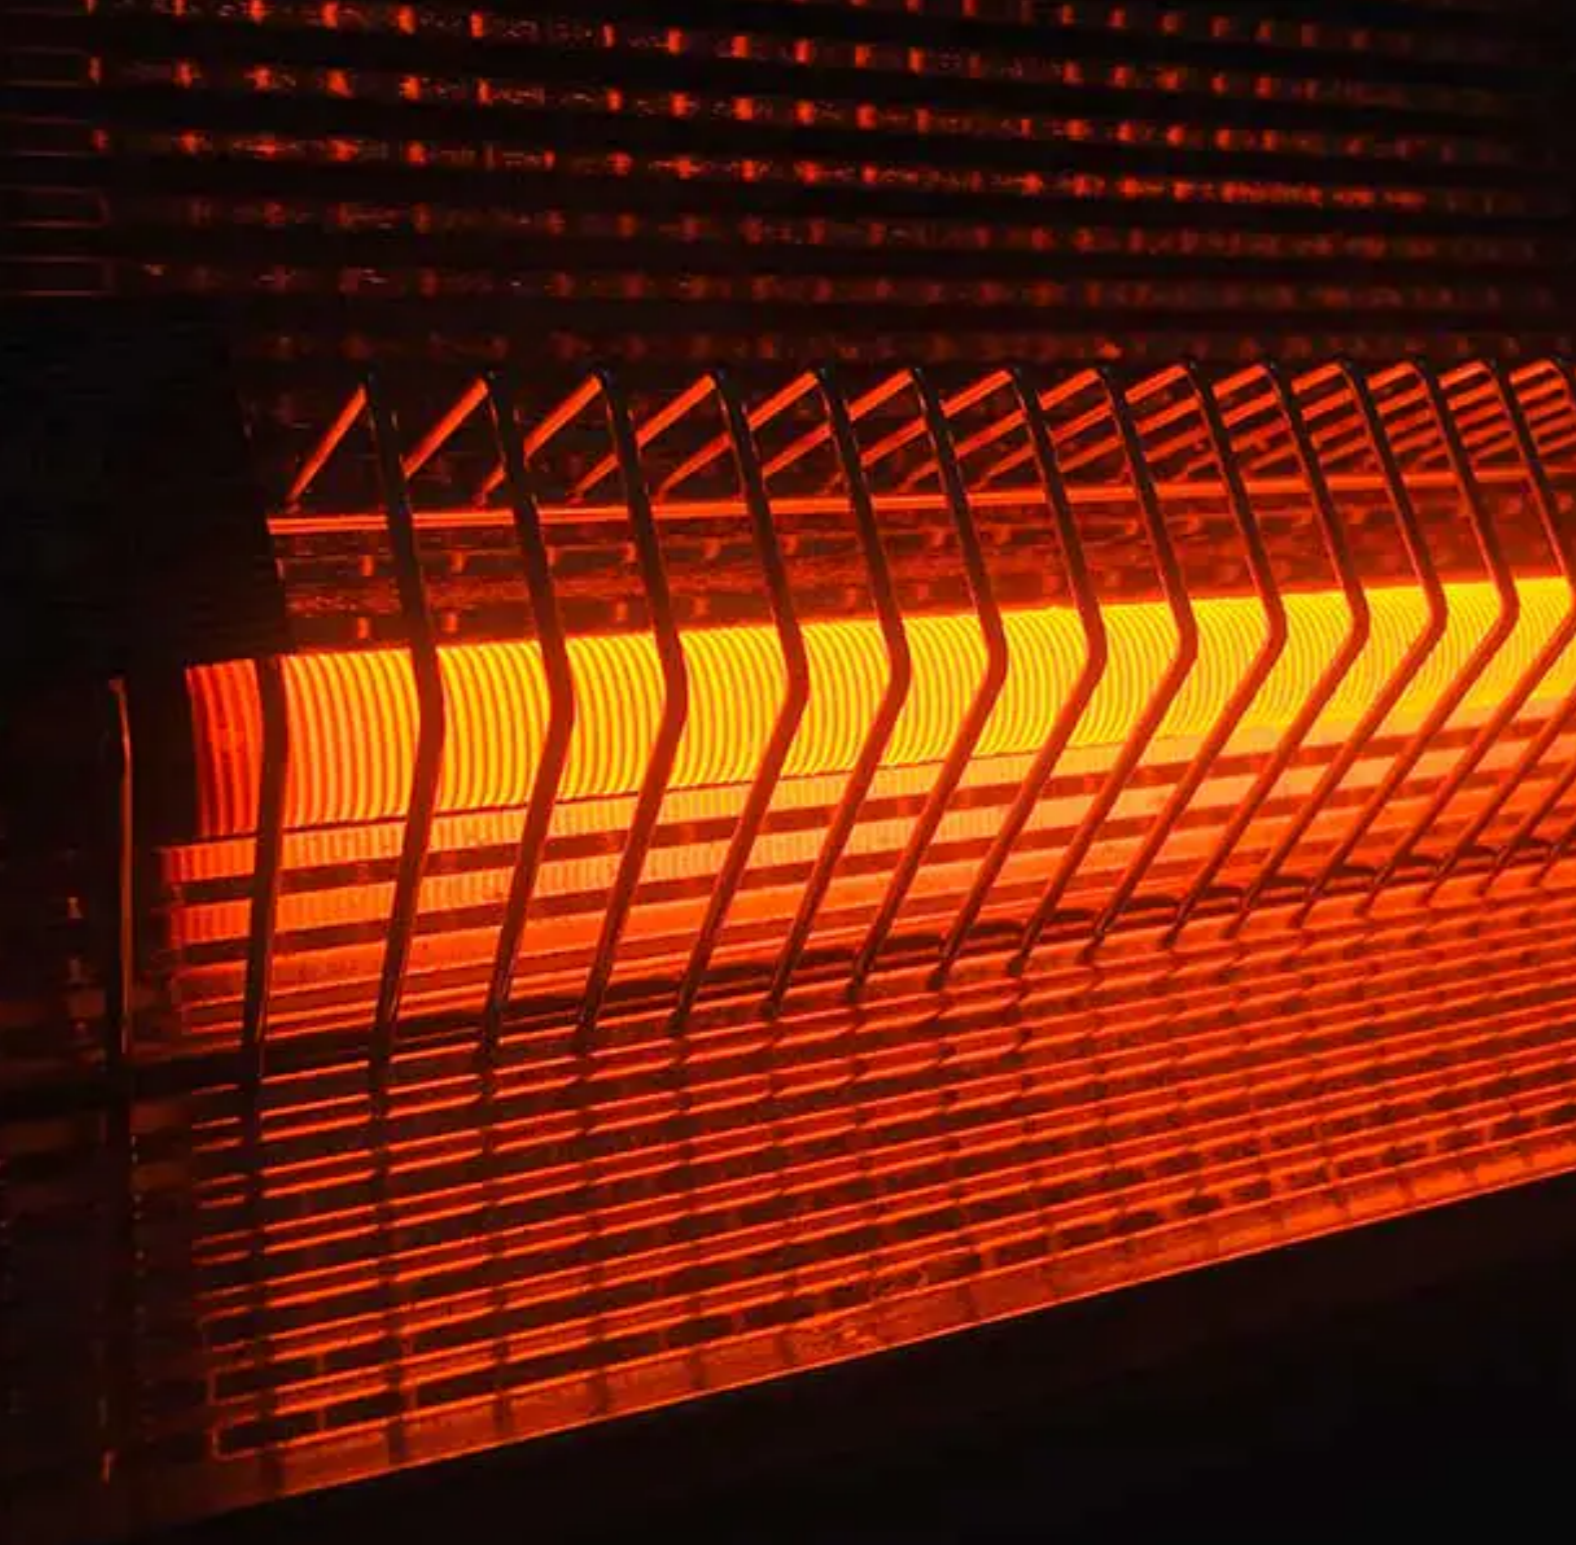

- 1.FUEL CONSUMPTION: 1.05L/h – 1.15L/h
- 2.Fuel tank capacity: 50L
- 3.Heating Area: 100-200m²
- 4.Heat Output(BTU): 10000-12000Btu/Hr
- 5.Logo: Accept Customized Logo
- 6.Noises: 45-48db
- 7.Rated power consumption: 80W(220V50Hz)
- 8.Timer: 24H
- 9.Control: Wifi/Remote Control
- 10.Safe: 45° Tip Over Protection
- 11.Alarm: Bottom Oil Level Alarm&Over heat safety protectin
- 12.Product Size(mm): 950*305*1165
- 13.Carton Size(mm): 995*345*1225

HA-046 Infrared Diesel Heater Kerosene Oil-Filled Boiler with Water Pump

- 1.Rated voltage: 220-240V
- 2.Frequency: 50/60Hz
- 3.Rating: Electric power: 80W Fuel power: 20KW
- 4.Temperature control: Yes/10-45 degrees Celsius
- 5.Dump Switch: Yes
- 6.No. of gears: 1
- 7.IP level: IP24
- 8.Remote controls: No
- 9.Heater Type: Diesel combustion
- 10.Product Size(mm) Length*Width*Height: 580*355*740mm
- 11.Package Size(mm) Length*Width*Height: 625*390*825
- 12.Net/Gross Weight (Kg): 39.0/44.0
- 13.Functional description/new features added:: 1, Class I resident vertical apparatus; 2. Not equipped with fuel tank and water pump; 3.Touch switch control panel, LED display ;Å 4.D100mm exhaust pipe; 5. Low water level detection, flame sensor, overheating 60 degrees Celsius shutdown protection function; 6.Fuel oil is continuously supplied through the oil pump, burned in the boiler liner, fully heat exchanged with the flowing water outside the liner discharge pipe, and the exhaust gas is discharged through the exhaust pipe, and the exhaust gas is in line with the emission requirements of the European Union EN13842;

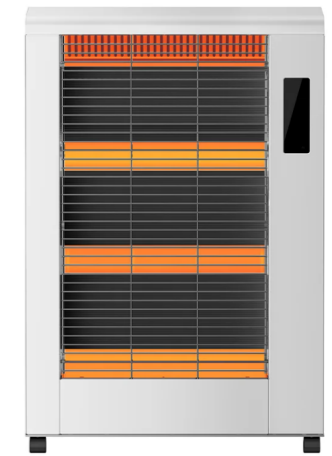

Infrared Heaters

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

HA-017 Electric Infrared Radiant Heater

- 1.Product Size (mm): 505*208*745
- 2.Carton Size (mm): 565*268*780
- 3.Product Certification: CE
- 4.Rated Voltage: 220-240v~50hz/60hz
- 5.Rated Power: : 3000W
- 6.Human Body Sensor: No
- 7.Dump Switch: Yes
- 8.Installation: Floor
- 9.Number Of Gears: 2 Gears
- 10.Temperature Adjustment: 5-45 °C
- 11.Overheating Protection: 110 °C
- 12.IP level: IP44 waterproof
- 13.Remote Control: Yes:
- 14.Heat Generation Mode: Radiation
- 15.Number Of Heating Tubes: 3
- 16.Functional Description: Radiant, Radiant Heating Plate Plus Carbon Fiber Heating Tube With Cross-Flow Fan Assembly, Multi-Speed Hybrid Heating, Multiple Control Modes: Remote Control, Remote App Control, Touch Screen Control, 24-Hour Timer.
- 17.Heater Type: Radiation Plate & Carbon Fiber Tube
- 18.The Farthest Sub-Shooting Distance: 1.5-2.0 Meters
- 19.Main Materials And Accessories: Metal Shell + Aluminum Alloy Heating Material
- 20.Heating Range: 25-30 Square Meters
- 21.Heating Principle: Radiant Heating
- 22.Applicable Scene: Domestic Or Commercial; Suitable For Families, Public Places (Restaurants, Shopping Malls, Hotels, Movie Theaters And Other Entertainment Venues), Offices, Workshops And Other Workplaces, And Outdoor Open-Air Restaurants, Rest Homes And So On.
- 23.Advantages: Large Area, High Power High Temperature Far, High Heating Efficiency, Easy To Move, Easy To Operate, Applicable To A Wide Range Of Scenes, Suitable For A Variety Of People. High Efficiency, Energy Saving, The Human Body Does Not Dry Within The Scope Of Adaptation.

HA-021 Carbon Fiber Electric Infrared Heater

- 1.Function: 24 hours timer & WiFi control
- 2.Body Sensor: Yes
- 3.Dump switch: Yes
- 4.Installation: Ceiling, Wall Mounted, Floor Freestanding
- 5.Number of gears: 4 gears
- 6.Temperature adjustment: 5-45 °C
- 7.Overheating protection: 60 °C
- 8.Remote control: Yes
- 9.Heat generation mode: Infrared radiation
- 10.Waterproof Level: IP65
- 11.Number of heating tubes: 1
- 12.Heater type: Carbon fiber heating tube
- 13.Specification: 1500W/2000W/2400W
- 14.The furthest sub-shot distance : Effective radiation heating distance 1 meter to 2 meters.
- 15.Product main materials and accessories used: Left and right plastic shell-PC; bottom plate-aluminum profile spraying; front mesh-stainless steel spraying high-temperature oil; wall bracket-SECC spraying.
- 16.Heating range: 15-30 square meters
- 17.Heating principle, working principle: Through the carbon fiber heating tube heating to produce radiant light (radiant heat) to heat the heating.
- 18.Applicable scene: High installation, suitable for families, public places (restaurants, shopping malls, hotels, movie theaters and other entertainment venues), offices, workshops, warehouses and other workplaces, and outdoor open-air restaurants, rest homes and so on.
- 19.Advantages: Large area, high power high temperature far infrared heater, double tube heating, high efficiency, energy saving

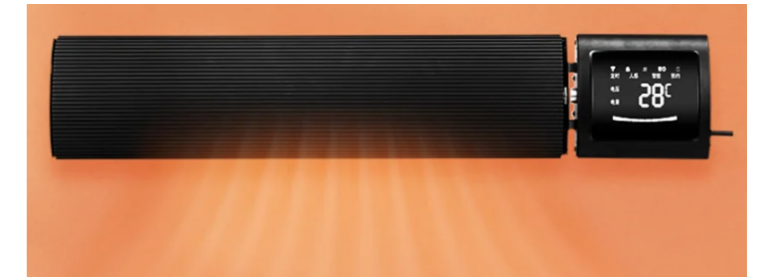

HA-019 Electric Infrared Heater

- 1.Product Certification: CE&3C
- 2.Rated Voltage: 220v/Ac220-240v
- 3.Frequency: 50/60Hz
- 4.Rated Power: 2000w/2600w/3200w
- 5.Function: 24 Hours Timer&Wifi Control&Weekly Timer
- 6.Body Sensor: Yes
- 7.Dump Switch: Yes
- 8.Installation: Wall Mounted
- 9.Number Of Gears: 4 Gears
- 10.Temperature Adjustment: 5-45 C
- 11.Overheating Protection: 55 C
- 12.IP Level: IP65 Waterproof
- 13.Remote Control: Yes
- 14.Heat Generation Mode: Infrared Radiation
- 15.Number Of Heating Tubes: 2
- 16.Heater Type: Carbon Fiber Heating Tube
- 18.The Furthest Sub-Shot Distance: Effective Radiation Heating Distance 1.5 To 1.8 Meters
- 19.The Main Materials And Accessories Used: Aluminum Alloy Body, High Temperature Plastic Display Box
- 20.Heating Range: 15-30 Square Meters
- 21.Heating Range: 15-30 Square Meters Heating Principle, Working Principle: hrough The Carbon Fiber Heating Tube Heat Generation Radiation Light (Radiation Heat) To Heating
- 22.Applicable Scene: High Installation, Suitable For Families, Public Places (Restaurants, Shopping Malls, Hotels, Movie Theaters And Other Entertainment Venues), Offices, Workshops, Warehouses And Other Workplaces, And Outdoor Open-Air Restaurants, Rest Homes And So On.
- 23.Advantages: Large Area, High Power High Temperature Far Infrared Heater, Double Tube Heating, High Efficiency, Energy Saving.

HA-024 Darklight Infrared Radiant Heater

- 1.Product Certification: CE/3C
- 2.Voltage: 220-240V
- 3.Frequency: 50hz
- 4.Power: 2000w/2600w/3200w
- 5.Number Of Gears: 2 Gears
- 6.Temperature Adjustment: 5-45 C
- 7.IP level: IP55 waterproof
- 8.Heating Tubes: 2
- 9.Functional Description: Led Display, Electronic Control, Wifi Remote Control, 24-Hour Timer, Weekly Timer
- 10.Maximum Sub-Shooting Distance: 1.5 To 1.8 Meters
- 11.Main Materials And Accessories: Aluminum Alloy Body, High Temperature Resistant Plastic Display Box
- 12.Temperature Resistant Plastic Display Box Heating Range: 18-28 Square Meters
- 13.Heating Principle: Electrical Energy Is Converted Into Heat Radiation, Radiant Heating Principle.
- 14.Applicable Scene: Suitable For Families, Public Places (Restaurants, Shopping Malls, Hotels, Movie Theaters And Other Entertainment Venues), Offices, Workshops, Warehouses And Other Workplaces, And Outdoor Open-Air Restaurants, Rest Homes And So On.

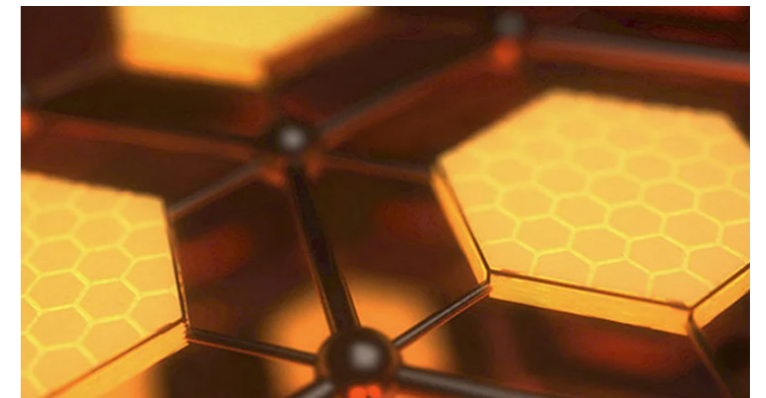

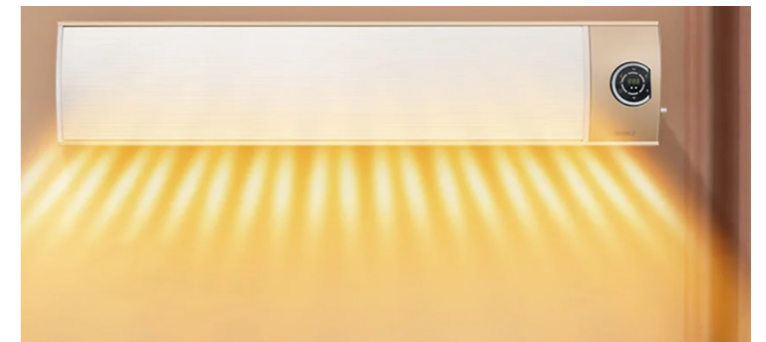

HA-023 Infrared Carbon Crystal Electric Heater

- 1.Rated Voltage: 220-240V
- 2.Frequency: 50Hz/60Hz
- 3.Rated Power: 500/850/1200W
- 4.Product Model: CHA-500/850/1200W
- 5.Temperature Adjustment: 5-45 C
- 6.Overheating Protection: 150 C
- 7.Heater Type: Carbon Crystal Heating Plate
- 8.Heating Range: 5-18 Square Meters
- 9.Product Selling Points: 1. Thin Product Size, Aluminum Frame 23mm Thick, Can Be Ceiling, Wall And Floor Use, Suitable For Each Scene Installation, Occupies Little Space 2.Adopt Graphene Heating Film, Large Radiation Area, Heating Operation Is Quiet And No Noise; 3. Adopt Rf Remote Control, Can Be Long-Distance (≥ 8m) 360° No Dead-Angle Control, No Need To Remote Control Operation To The Machine; 4. Can Be Connected To Wifi, App Remote Control, Booking Weekly Timed Work Mode; 5.Dc24v Led Background Ambient Light Power 15w, Four Brightness Adjustable And 6500k White/3000k Warm Yellow/ Neutral Light Three Colors Of Light Optional, Add Brightness To The Space.
- 10.Scenario: Suitable For Families, Public Places (Restaurants, Shopping Malls, Hotels, Movie Theaters And Other Entertainment Venues), Offices And Other Workplaces, And Outdoor Open-Air Restaurants, Yoga Studios, Rest Homes And So On.

HA-025 Darklight Infrared Radiant Heater

- 1.Product Certification: 3C
- 2.Rated Voltage: 220v
- 3.Frequency: 50hz
- 4.Rated Power: : 2200w/3200w/4000w
- 5.Human Body Sensor: No
- 6.Temperature Adjustment: 5-45 C
- 7.IP level: IP44 waterproof
- 8.Number Of Heating Tubes: 2
- 9.Functional Description: Remote Control + Wifi Control + Offline Voice, Remote App Control, 24-Hour Timer, Weekly Timer
- 10.Heater Type: Radiation Plate
- 11.The Farthest Sub-Shot Distance: 1.5-2 METERS
- 12.Product Materials And Accessories: Metal Shell, Aluminum Graphene Heating Plate
- 13.Heating Range: 10-18 Square Meters
- 14.Heating Principle: Aluminum Radiant Heating Plate
- 15.Applicable Scenes: Domestic Or Commercial; Suitable For Families, Public Places (Restaurants, Shopping Malls, Hotels, Movie Theaters And Other Entertainment Venues), Offices, Workshops And Other Workplaces, And Outdoor Open-Air Restaurants, Rest Homes And So On.

Multifunctional Heater

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

HA-032 Multi-function Heater Convection & Infrared Radiant Heater

1. Class I apparatus, portable use.
2. Radiation + convection three-dimensional space heating, rapid warming ;
3. NDU-22DT electronic touch screen + remote control; NDU-22WT electronic touch screen + WIFI + Bluetooth + remote control
4. Leather carrying handle
5. Anti-slip foot pad feet
6. Overheating power-off protection function
7. function: high and low adjustable, 5-45 °C temperature adjustment
8. 24 hours timer shutdown
9. ECO energy-saving mode, sleep mode, child lock, Celsius and Fahrenheit temperature switching, can be timed to turn on the power; WIFI remote control + weekly timer (Model NDU-22WT).

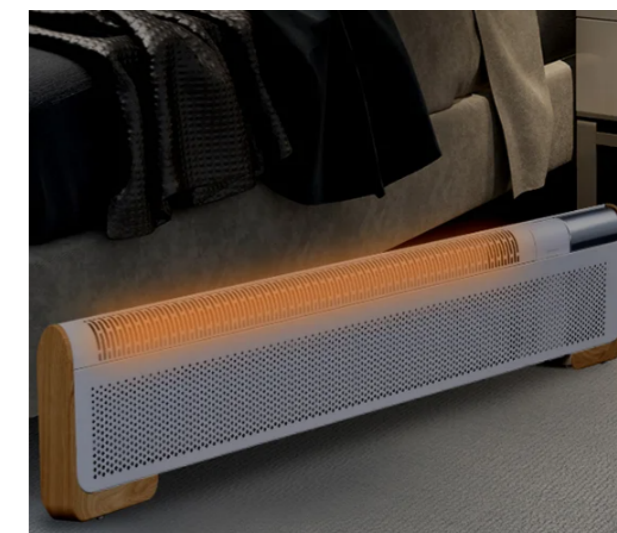

HA-030 Multi-function Heater Convection & Infrared Radiant Heater

1. Energy Efficiency Rating: Class A+++
2. Heating Element: Heating Wire
3. Product size: 122*90*33mm
4. Function: Adjustable Thermostat, Deodorization, Lighting, Overheat Protection, Remote Controlled, Tip-Over Protection, Ventilation, Waterproof.
5. Temperature Setting: 5 °C -35 °C
6. Voltage: 220V-240V/50Hz
8. Rated Power: 2200W
9. Feature: 1. Fixed installation, folding graphene radiant heater; 2. 220V/50Hz/2200W touch control, remote control +WIFI remote control; 3. Electronic type, LED digital screen display, temperature setting of 5 to 45 degrees, 24-hour timing switch on and off, cloud timing switch on and off function; 4. Variable frequency intelligent heating control; 5. 360-degree rotary heating can meet the requirements of multi-angle and multi-direction heating and variable form three-dimensional heating; 6. IP24, suitable for various occasions; 7. Effects of radiation and convection heating methods

HA-031 Electric Baseboard Convectector Heater

1. Energy Efficiency Rating: Class A+++
2. Power: 2200W
3. Voltage: 220V-240V/50Hz
4. Product size: 1200*100*234mm
5. Overheat protection: Yes
6. Feature: 1. Portable portable, graphene radiant heater; 2. 220V/50Hz/2200W touch control, remote control+WIFI remote control; 3. Electronic type, LED digital screen display, temperature setting of 5 to 35 degrees, 24-hour timing switch on and off, cloud-cycle timing switch on and off function; 4. Convection+radiation heating, two-way heating, with micro humidification function; 5. Multiple intelligent heating control mode; 6. IPX4, suitable for various occasions;
7. Heating Element: Heating Wire
8. Function: Adjustable Thermostat, Deodorization, Lighting, Overheat Protection, Remote Controlled, Tip-Over Protection, Ventilation, Waterproof

Wall-mounted Fireplace

As a professional manufacturer, we not only provide a broad range of standard products but also offer OEM/ODM customization services to meet your unique requirements and brand specifications.

Whether you're looking for electric radiators, fan heaters, infrared panels, or other specialized heating solutions, we have an extensive product lineup to support your needs. Our experienced R&D team can tailor material selection, design, and power specifications according to your applications, all while ensuring compliance with international safety and efficiency standards.

HA-035 Insert & Wall-Mounted Electric Fireplace

- 1.Power: 1800W,2 heat setting(900W/1800W)
- 2.Air Outlet: Front
- 3.Temperature Setting: 18-35 °C
- 4.Material: Log set with LED light Effect
- 5.Flame: 7 changable flames,5 level flame brightness
- 6.Heat: Can be used without heating but only flame
- 7.Timer: 1H to 9H
- 8.Size: 30" /36" /42" /48" /60" are available

HA-036 Wall Mounted Electric Fireplace

- 1.Application: Hotel, Commercial, Household
- 2.Model Number: YFA-5204ERA
- 3.Product Size: 968*210*580mm
- 4.Carton Size: 1070*310*695mm
- 5.Timer: 7days*24hours\$open window detection
- 6.Temperature Set: 16~30 °C
- 7.N/W ; G/W: 19.5kg ; 25.6kg
- 8.Control mode: Manual Button + Remote Control
- 9.Flame effect: LED Flame Lights
- 10.Features: Nature white pebbles
- 11.Power: 2 power setting
- 12.Safety: Saftey themal cut-off built in to protect over heat

HA-038 Wall Mounted & Insert Electric Fireplace

- 1.Power: 1000W/2000W
- 2.Voltage: 220V-240V
- 3.Flame Colors: 7 Colors
- 4.Product Size: L812*W130*H450mm
- 5.Flame Brightness: 5 Levels
- 6.Temperature Set: 18~35 °C
- 7.Timer: 30min-9hours
- 8.Installation: Wall mounted
- 9.Material: Flat tempered glass panel
- 10.Application: Hotel, Garage, Commercial, Household
- 11.Feature: Overheating Protected/Adjustable Thermostat/Open window detectionsafety thermal cut-off built

HA-034 Wall-Mounted Electric Fireplace

- 1.Power: 900W/1800W
- 2.Voltage: 220-240VAC
- 3.Timer: 30 Mins-9 Hours
- 4.Control mode: Manual Panel+Remote Control
- 5.Logo: Accept Customization
- 6.Product Size: 762*110*390mm
- 7.Temperature Setting: 18-35 °C
- 8.Flame: 7 flame can be choosed/5 levels flame brightness adjustment
- 9.Size: 30" /36" /42" /48" /60" are available
